frazierandson.com

SUPERIOR DESIGN

- Provides gentle and reliable material handling
- Horizontal, incline and Z-shape configurations available
- Robust stainless steel and sanitary construction
- Tool-less, quick release access for cleaning

Removable stainless steel covers on belt return

All wash-down duty components mounted on stand offs to meet sanitation requirements

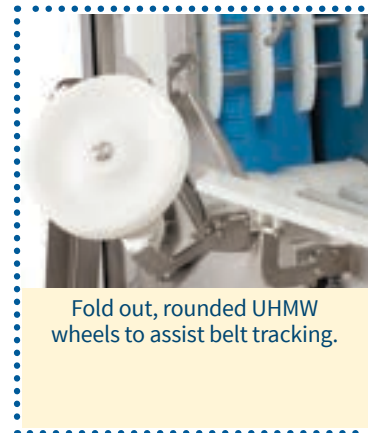

Easy to operate, belt tensioner to loosen belt prior to removing sideboards and activating belt lifting system

Manual belt lifters enable easy access for cleaning

EASY TO CLEAN

- Belt guides, rollers and sideboards are hinged for quick access
- Quick-release belt tensioner and lifters
- Carry-ways lift out without tools
- Belting has sealed edges to prevent contamination
- Endless belt with welded splice
- Belting has excellent chemical resistance to common sanitizers and detergents
