# FRAZIER SANITARY INCLINE BELT CONVEYORS

Frazier & Son's new line of Incline Conveyors are designed for high-end food and packaging applications. These conveyors are designed with innovative quick release fold-out side boards and belt lifters to raise the belt from the frame for quick wash down without tools.

Let us show you how ***We Convey Quality™***

- Provides gentle and reliable materials handling
- Horizontal, incline and Z-shape configurations
- Robust stainless steel and sanitary construction
- Tool-less, quick release access for cleaning
- Belt lifter system enhances accessibility and speeds cleaning

FRAZIER INCLINE CONVEYORS

*Elevate Your Expectations*

**FRAZIER & SON**

# FEATURES:

## ROBUST, SANITARY CONSTRUCTION

- Built to meet and exceed the Food Safety Modernization Act (FSMA) sanitary standards
- Heavy duty stainless steel framework
- Elimination of tubing, hollows and harborage points
- Minimization of fasteners
- Continuously welded standoffs and seams
- Kevlar® reinforced Urethane belt

## EASY CLEAN DESIGN

- Belt guides, rollers and sideboards are hinged for quick access
- Quick-release belt tensioner and lifters
- Belt lifters to easily raise the belt
- Carry-ways lift out without tools
- Belting has sealed edges to prevent contamination
- Endless belt with welded splice
- Cantilevered frame configuration available for endless belt removal
- Belting has excellent chemical resistance to common sanitizers and detergents

## BELT TRACKING

- Positive drive belting and dynamic guides to ensure reliable tracking
- Continuous carry-way belt support maintains control of the belt

## BELT OPTIONS

- Low temperature materials
- Straight or scoop cleats
- Corrugated sidewalls
- Guarding and enclosure options
- Clean-in-place configurations
- Drum-motor or gearmotor drive configurations
